
CUBE NOTEPAD ON A CARTON STAND

PRODUCT DESCRIPTION

Original promotional cube notebook

The cube notebook on a stand is an eye-catching advertising gadget. The 400 cards in a non-glued block are contained in a striking curved n-shaped stand, which gives the whole thing its original form. The white sheets of smooth paper contrast nicely with the reusable stand.

Cube notes on a stand - the double unique promotional gadget

The cardboard stand gives an attractive visual effect for two reasons - the spatial form itself, but also the possibility of printing on a large surface. Graphics with the company logo or any other can also be placed on the cards.

Rely on us and prepare your individual project with our help

If you do not cooperate with a proven graphic designer - rely on us. We will advise you on how to independently prepare an individual, professional graphic design exactly according to your guidelines and ideas.
